Mrs. Linda Sutton, et al,

Thank you for inviting me to present my Report of Investigation to the FCBOE. First, I would like to state that on several occasions I requested that the board members either separately or as a formal board meet with me to discuss my findings. During several meetings I tried to speak and or share my finding with the board members. I would also, like to state that, Ms. Sutton, you are the chairman of Forsyth County Board of Elections, thus, I believe that whatever information that I shared with you, should have been shared with your 2 subordinates, especially after we had agreed that you would share the information with them. Thus, the fact that I was not allowed to present these finding to the entire board prior to this invitation should not be used as an excuse to have made decisions that my report finding could have negatively or positively affected.

It is my opinion that, on December 1, 2010 I had an extensive briefing with the Chairman of the Board and any further sharing of information with the other board members was not my responsibility. The fact that you did not allow me or invite me to meet with you is not an excuse for ignoring the issues identified in my report. I will also remind you that on numerous occasions during or in between meetings, I was not allowed to speak or ask questions during board meetings. Thus, "I appreciate the fact that now the board is finally interested in my report findings.

I have completed my audit and investigation and have a detailed report of findings for your information. The contents of this report of alleged illegal and unethical conduct,, was presented to the North Carolina State Board of Elections for their information as well. Accordingly, I will answer all questions and address any concerns.

Thank you in advance for your attention.
